-----------------------------	----------------	---------------	------------	--------------

Totals at All Fronts of Field Army	311 252	36 354	1 686	8 055
---	----------------	---------------	--------------	--------------

The table combines information from five separate authentic documents signed by the Deputy Chief of Operations of the RMSR Field Staff, which present comparative numbers of the forces of the fronts and the enemy opposing them. Information on the enemy has been omitted.

Information for the 6th Independent Army is given as of 15 June.

Corrections:

- Errors of addition are corrected.
- The number of MGs for the 2nd Ukrainian Division was given in the original as zero, which is clearly incorrect. The 196 is back-calculated from the total for MGs in the Army.
- The 11th Army has the 7th Rifle Division corrected to 7th Cavalry division.
- The 1st Army has the 5th Cavalry Division corrected to 3rd Cavalry Division
- The Turkestan Army has the 15th Rifle Division corrected to 25th Rifle Division.
- The same brigade of the 33rd Rifle Division is mentioned for both the Southern and Eastern Fronts, so the final data should be reduced accordingly.
